

The TUM Office for Research and Innovation (ForTe)

is looking to hire as soon as possible a

Student Assistant TUM Entrepreneurship (f/m/d)

Network & Events in the area of Food / Agro / Biotech in Weihenstephan

(up to 20 hours/week, flexible scheduling)

TUM Entrepreneurship supports ambitious founders and startups on their journey from idea to market validation. With our experience and network, we help innovative projects reach the next level. This is your chance to gain insight into the development of startups within a dynamic, interdisciplinary team and collect valuable practical experience in an international environment.

Your Tasks

We are particularly looking for a TUM student with a background in business and/or life sciences to support us with the following activities:

- **Organization of networking formats:** Supporting the planning and execution of monthly networking events (used as a platform for peer-to-peer knowledge exchange among founders and stakeholders in the agricultural and food sectors)
- **Co-organization of info sessions & events:** Executing, planning, and managing startup info events (e.g., from EIT Food projects) and startup events (e.g., AgriFood Demo Day)
- **Startup support:** Assisting and advising startups in close collaboration with our team
- **Support with network communication (e.g., newsletter):** Creating content for a regular newsletter aimed at startups in the agricultural and food sectors

Your Profile

- Enthusiasm for startups, technology, and innovation
- Strong analytical skills and quick comprehension
- Structured, accurate, and independent working style
- Team player with excellent communication skills
- Excellent command of both German and English
- Proficiency with digital tools (Notion, Slack, MS Office, Miro, ChatGPT)
- Any experience with organizing events, building websites, content creation, or (on-line) marketing is a plus

We Offer

- Insight into innovation consulting and the startup ecosystem at a leading university
- Participation in advisory meetings with innovative AgriFood startups
- Opportunities to work independently on projects and develop your own project ideas
- The chance to gain valuable project management and business skills
- Access to a network of inspiring startup talents, experts, and seasoned entrepreneurs
- A dynamic and international working environment at TUM and the TUM Venture Lab Food / Agro / Biotech

Application

We look forward to receiving your compelling application documents: cover letter, CV, and all relevant certificates in a single PDF file, including the reference: "Student Assistant TUM Startup Consulting FAB". Please send your application by email no later than May 31, 2025 to: bewerbungen-tumforte@tum.de

Compensation is based on the standard pay scale for student assistants.

The position is suitable for individuals with severe disabilities. Applicants with severe disabilities will be given preference if they have essentially the same qualifications, skills, and professional performance. The Technical University of Munich is committed to increasing the proportion of women and therefore expressly encourages women to apply.
